

Session 4
Technical Drawing, exploded view and BOM

Mariana Piñeiro
Camila Valladares
Camila Rodriguez

General product drawing:

COMPLETE UNBROKEN WITH ALL PARTS

Overviews:

- (front, side, top)
- Isometric

Parts:

- Plastic board
- Dual Lock Velcro layer
- 4 neodymium magnets
- 3 different strap sizes
- Cylinder that simulates the hinge wire.

Part Drawings:

PLANOS POR CADA PIEZA

Overviews:

- (front, side, top)
- Isometric

Plans:

- Plastic:
- Large Velcro layer
- Spring strap - Detail Drawing: explain in the plan that this will have seams for joining
- Square rectangular strap
- Small Velcro (strap)

Also make a plan of the complete strap, explaining that the spring is glued to the plastic piece.

Exploded view:

ALL PARTS

(Including the cylinder that simulates the wire or screw for the hinge to function)

PRELIMINARY BOM:

Preliminary BOM				
Part/Component	Qty.	Type	Material	Process/Supplier
Main shell/body	1	Manufactured	Unbroken plastic	AMSA plastic injection
Hooks	2	Manufactured	Metal	Mold in metal factory
Locks	2	Commercial/manufactured	Metal	Home depot
Dual-lock velcro	7	Commercial	Velcro	Mercado Libre
Neodymium magnets	4	Commercial	Metal/magnetic	TBD
Secure straps	3	Manufactured	Unbroken plastic	AMSA plastic injection
Straps	3	Commercial/manufactured	Nylon/silicone	Mercado libre + stitching

Cost	Function	Status
TBD	Main structure	Needs printing
TBD	Holding/hanging	Needs tests
\$30.00	Securing hooks	Needs dimensions
\$242.00	Securing objects	Needs buying
TBD	Sticking to different places	Needs buying/dimensions
TBD	Sticking to velcro	Needs printing
\$160.00	Holding objects	Needs buying/stitching
